| |1 of 1 people found the following review helpful.| Good thing this book is created. | By Ruby Fowler |This book is an eye opener. The symptoms of each personality disorder are different. They can mild or severe. People with personality disorders may have trouble realizing that they have a problem. To them, their thoughts are normal, and they often blame others for their problems. They may try to get help because of their problems

There are an increasing number of people being diagnosed with a personality disorder. This is partly because it no longer carries the stigma it used to. It is also a result of an increase in awareness; people are more prepared to visit the doctor and seek assistance.

There are actually several distinct categories of personality disorders and, some of these disorders are barely noticeable in today's modern promiscuous society
